

Jean Allard Jeancon  
MSS 343

DRAFT COPY

The collection contains correspondence, field notes, reports, maps, photographs and printed material. Much of Jeancon's research was reflected in articles appearing in the *Colorado Magazine*, volume 1, 1923-1924.

The collection has been temporarily arranged by format. File and envelope numbers have been assigned arbitrarily in order to assist the researcher until more detailed processing can take place.

Exact provenance of the collection is unknown although Colorado Historical Society staff assembled some of the material.

**CONTENTS**
